

# TRUST GENERAL TRADING & CONTRACTING CO. SPC

# ABOUT US

**Trading. Contracting. Engineering. Delivered with Trust**

Trust General Trading & Contracting Co. S.p.C is a Kuwait-based, ISO 9001:2015-certified partner delivering end-to-end solutions across oil & gas, petrochemical power, and infrastructure sectors. For over two decades, we've combined trading expertise, turnkey contracting, precision steel fabrication, equipment supply, and specialized technical services under one accountable roof, moving your project from concept to commissioning with confidence.

**Quality. Safety. Delivery. Guaranteed**

# OUR SERVICES

*Integrated Capabilities. Single Accountability*

We deliver end-to-end solutions across five core pillars, each backed by [ISO 9001:2015](#) quality systems and two decades of field-proven execution in Kuwait's industrial sectors.

## Trading

Supply Of Certified Materials, Specialized Equipment, And Engineered Components, Sourced Globally, Delivered Locally, With Full Documentation And Compliance Support For Government, Oil & Gas Approvals, Local And International Contractors.

## Contracting

Turnkey Civil And Mechanical Construction Services: Structural Works, Piping, Foundations, And Site Execution, Managed With Strict Safety Protocols, Schedule Discipline, And Quality Control From Mobilization To Handover.

## Engineering & Fabrication

In-House Structural Steel And Precision Sheet Metal Fabrication: Design Support, CNC Cutting, Welding, Assembly, Industrial Coating, And Installation Optimized For Constructability, Traceability, And Code Compliance (AWS/ASME/API).

## Equipment Supply

Reliable Provision Of Construction And Industrial Equipment, New Or Rental, With Technical Specification Support, Logistics Coordination, And After-Supply Service Alignment.

## Technical Services

Value Engineering, Material Consultation, Constructability Reviews, And Ongoing Engineering Liaison, Ensuring Design Intent Translates Seamlessly Into Workshop Output And Site Reality.

# DIVISIONS

*Specialized Teams. Unified Execution.*

## FABRICATION WORKSHOP

End-to-end steel and sheet metal production from design coordination to CNC cutting, welding, coating, and assembly with in-house QA/QC and full traceability.

## PROJECTS & CONSTRUCTION

Turnkey civil and mechanical execution with disciplined planning, HSE compliance, and site supervision, delivering on time, on budget, to spec.

## TRADING & PROCUREMENT

Certified materials and equipment sourcing, logistics, and local approval support streamlining submissions for government and oil & gas clients.

*Integrated Management Ensures Seamless Coordination, Transparent Progress,  
And Single-Point Accountability.*

## ENGINEERING SUPPORT

Value engineering, constructability reviews, and technical liaison, ensuring design intent translates accurately into fabrication and installation.

## QUALITY, HSE & COMPLIANCE

ISO 9001:2015 oversight, safety protocols, and inspection coordination, guaranteeing every deliverable meets certified standards.

## CIVIL & BUILDING CONSTRUCTION

### TURNKEY BUILDING CONSTRUCTION

We Deliver Comprehensive Building Solutions With Single-Point Accountability. From Architectural And Structural Design, Developed In Partnership With Leading Kuwaiti Engineering Bureaus To Construction, Commissioning, And Handover, We Ensure Seamless Integration And Precision At Every Phase.

### CIVIL & INFRASTRUCTURE CONSTRUCTION

We Specialize In Critical Civil Works, Including Equipment Foundations, Pipe Rack Supports, Drainage Networks, Culverts, Access Roads, Paving, Fencing, And Underground Utilities. Our Vast Experienced Team Supported By A Company-Owned Fleet Of Heavy Earthmoving And Compaction Equipment Ensures Robust Execution And Strict Schedule Adherence.

## MECHANICAL PROJECTS

### MAINTENANCE

We provide integrated mechanical, electrical, and civil maintenance services built on reliability, safety, and performance continuity. Our structured preventive and corrective strategies, aligned with international best practices, ensure mechanical assets, electrical systems, and civil infrastructure operate efficiently throughout their lifecycle. Every task is executed with detailed planning, risk assessment, and strict adherence to approved procedures.

### MECHANICAL CONSTRUCTION

We deliver new mechanical installations for the industrial and oil & gas sectors, maintaining full in-house control from design support and fabrication to assembly, testing, and site erection. Operating from our ISO 9001:2015-certified workshop in Mina Abdulla (2,000 m<sup>2</sup> covered space + 2,000 m<sup>2</sup> open yard), we deploy company-owned machinery and certified personnel to deliver high-integrity mechanical systems.

### Sub-Divisions

- Steel Fabrication
- Piping Systems
- Tank Design & Fabrication
- Heat Exchanger Services
- Pump Station Construction & Installations

## EQUIPMENT SUPPLY & RENTAL

Our dedicated division operates a fully owned, strategically maintained fleet of heavy construction and industrial equipment to support ministries, oil & gas operators, and local and international contractors across Kuwait. From cranes and heavy lifting to transport, earthmoving, and infrastructure machinery, we provide reliable, on-demand equipment solutions, enabling clients to execute diverse projects efficiently without the burden of capital investment or fleet maintenance.

### Our Equipment Fleet

#### Lifting Equipment

#### Material Handling

#### Specialized Equipment

#### Transport & Earthmoving

## TRADING & PROCUREMENT

### *Reliable Industrial Products & Engineered Supply Solutions*

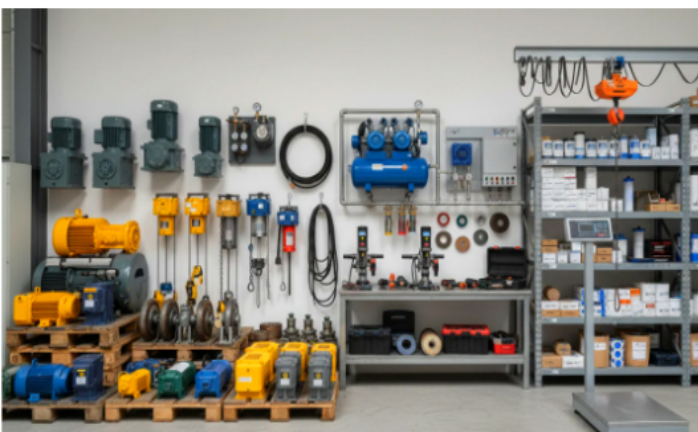

Our division supplies a comprehensive range of high-quality industrial products, engineered equipment, and certified solutions to support construction, oil & gas, infrastructure, and industrial projects across Kuwait. Our strength lies in sourcing from approved manufacturers, ensuring technical suitability, timely delivery, and long-term operational reliability.

### core supply portfolio

- Bridge Cranes (EOT)
- Spare Parts
- Pumps & Diesel Power Generators
- Weighing Equipment & Weighbridges

### our sub-divisions

#### MATERIAL HANDLING DIVISION

Complete material handling solutions for industrial lifting, fabrication yards, workshops, and construction sites. We supply Bridge Cranes (EOT) from European manufacturers, hoists, forklifts, pallet jacks, and customized lifting components, backed by standardized and project-specific configurations to meet exact requirements.

#### FILTER DIVISION

High-quality filtration solutions to protect engines, machinery, and industrial systems from wear and contamination. Our portfolio includes oil filters, fuel filters, air filters, and hydraulic filters, designed to ensure clean fluid and air flow across vehicles, power generation, and industrial applications.

## INDUSTRIAL TOOLS DIVISION

Reliable, heavy-duty tools for fabrication, erection, and maintenance works across industrial sectors.

All tools are selected to deliver precision, durability, and safe operation in demanding site conditions.

Complete range of pneumatic equipment and accessories for industrial automation, fabrication, and utility systems.

Our products ensure efficient air management, long service life, and stable performance in industrial environments.

## PNEUMATIC DIVISION

## ELECTRICAL & INSTRUMENTATION DIVISION

Accurate measurement, monitoring, and safety control equipment for industrial and operational applications.

All equipment is selected to meet operational accuracy and site safety requirements.

## SPECIAL SERVICES DEPARTMENT

The Special Services Department of TRUST General Trading & Contracting Co. SPC delivers specialized, compliance-driven support services that enable smooth project execution, rapid market entry, and operational continuity for local and international clients in Kuwait.

Our services are designed to complement core engineering and construction activities by providing manpower, sponsorship, mobilization, procurement, and third-party coordination—executed strictly through official, transparent, and compliant channels.

# Quality Assurance Standards & Certifications

## ISO CERTIFICATION

TRUST is ISO 9001:2015 certified and follows a strong quality management system focused on continuous improvement, compliance with international standards, and client satisfaction.

## QUALITY STATEMENT

TRUST is committed to delivering high-quality services by adhering to approved standards in design, materials, workmanship, and project execution. We implement effective quality management systems to ensure consistency, reliability, and continuous improvement across all operations. Our focus on skilled manpower, controlled processes, and client feedback enables us to meet contractual requirements and exceed customer expectations. Quality excellence is embedded in our organizational culture and applied at every stage of project delivery.

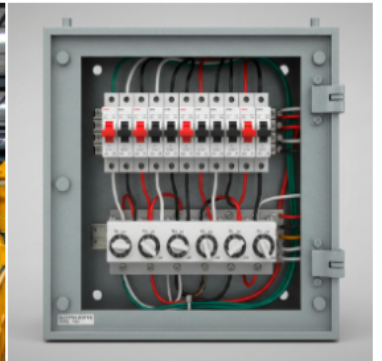

## QHSE POLICY

TRUST is committed to maintaining high standards of Quality, Health & Safety, and Environmental protection. The company complies with all applicable government regulations and industry standards. TRUST promotes safe working practices. TRUST continuously improves its QHSE performance

## APPROVALS & COMPLIANCE

Approved for manpower and equipment supply  
Compliance with local authority regulations in Kuwait, Civil Contractor, Supplier for wide range of products. Logistic and Adherence to client-specific project requirements

# PROJECT PORTFOLIO

**Quality & Safety**

**Safe. On Time. Excellence  
Guaranteed.**
